

Portable Compressors

MOBILAIR® M13 - M350

With the world-renowned SIGMA PROFILE Flow rate 1.2 to 34.0 m³/min (42 – 1200 cfm)

MOBILAIR – KAESER quality and efficiency for every need

Compressed air as a versatile energy source

With nearly a century of experience in machine construction and engineering, KAESER KOMPRESSOREN is one of the world's leading compressor manufacturers and compressed air systems providers. KAESER's comprehensive range of products and services ensures that all compressed air users are provided with a solution that meets their exact requirements.

Made in Germany

MOBILAIR portable compressors are manufactured at KAESER's headquarters located in Coburg, Northern Bavaria. Equipped with the very latest technology, the recently modernised portable compressor plant boasts stateof-the-art equipment, including a TÜV (German Technical Inspection Agency) certified sound testing area for freefield sound level measurement, a complete powder-coating facility and efficient manufacturing logistics.

SIGMA PROFILE

Every KAESER rotary screw airend is equipped with energy-saving SIGMA PROFILE rotors. Components manufactured to the highest standards and precision aligned roller-bearings ensure long service life with maximum reliability.

Excellent accessibility, optimum serviceability

MOBILAIR portable compressors are simple to operate and allow excellent component accessibility. This makes service work fast and efficient. Customised service contracts are also available upon request.

KAESER portfolio

Compressed air system solutions for every application

Compact powerhouses

with petrol engines up to 15 bar

Even the smallest MOBILAIR compressors are more than capable of powering breakers, drills, saws, grinders, impact wrenches and impact borers. The 15-bar version is the ideal choice for trenchless laying of glass fibre cables or for leakage tests. In addition, the compressor can be equipped with an external aftercooler or filter combination to deliver cool and condensate-free compressed air.

MOBILAIR M 13 with external filter combination

Portable compressors

with the patented Anti-Frost Control

Just like their larger counterparts, MOBILAIR portable compressor models with flow rates ranging from 2 to 5.6 m³/min also ensure dependable performance even in cold conditions: KAESER's patented Anti-Frost Control automatically adjusts operating temperature according to ambient temperature. Together with the optional tool lubricator, this not only prevents tools from freezing, but also extends air tool service life and availability.

Exceptional power and versatility

Compressed air and more...

The MOBILAIR portable compressors in this product group provide exceptional versatility. Optionally available with synchronous generators and/or compressed air treatment components, these compressors are also offered in various maximum pressure versions.

Efficiency and performance

with SIGMA CONTROL SMART or SIGMA CONTROL MOBIL

Available for MOBILAIR compressors with flow rates up to 34.0 m³/min, the innovative SIGMA CONTROL SMART and SIGMA CONTROL MOBIL compressor control systems are simple to use and, by precisely matching motor power to the compressed air components, significantly enhance fuel efficiency.

e-power

The alternative, emissions-free drive for portable compressors

The new M27E, M31E and M50E portable compressors truly come into their own wherever an electrical power connection is available. Their whisper-quiet electric drive makes them the perfect choice for use in noise protection and low emission zones. Compressed air applications in tunnels and within buildings are tamed by the compressors' emissions-free drive.

MOBILAIR accessories

- Electrical connection cable to towing vehicle and adapter (7 and 13 pole, 12 and 24 V)
- 50 mm ball couplings and towing eyes available with diameters of 45, 68 and 76 mm
- Various hose lines (separate or integrated with claw couplings)
- Hose lubricator
- Centrifugal separator on support stand, optionally available with 4-I tool lubricator
- · Fluids and lubricants
- Filter sets for regular maintenance

Genuine KAESER parts

As with all KAESER products, consumable and spare parts are quality tested to ensure best possible performance. You can rest assured that all components are guaranteed and designed to meet the demands of the applicable operating conditions.

The world is our home

As one of the world's largest compressed air system providers and compressor manufacturers, KAESER KOMPRESSOREN is represented throughout the world by a comprehensive network of branches, subsidiary companies and authorised partners in over 100 countries.

With innovative products and services, KAESER KOMPRESSOREN's experienced consultants and engineers help customers to enhance their competitive edge by working in close partnership to develop progressive system concepts that continuously push the boundaries of performance and compressed air efficiency.

Moreover, the decades of knowledge and expertise from this industry-leading system provider are made available to each and every customer via the KAESER group's global computer network.

These advantages, coupled with KAESER's worldwide service organisation, ensure that every product operates at the peak of its performance at all times and provides maximum availability.
